OF YOUR

**ACID
REFLUX**

There's more than one way

THERE'S MORE THAN ONE WAY TO TREAT ACID REFLUX

If you're reading this, you've probably been suffering. You're all too familiar with the constant burning sensation, feelings of nausea, the embarrassing belching or even the stomach pains that wake you up in the middle of the night. The most frustrating thing is that you've got a prescription drug that just doesn't seem to be working for you!

**On medication,
but still suffering?**

**Take action.
Ask about your
options.**

Know your options

It's important to understand that a person can respond differently to drugs that are actually quite similar. If you're still having stomach symptoms with your current prescription, ask your doctor or pharmacist if there is another option that might work better for you.
